Always was willing to help everyone, often held zooms especially during times of exams and ensured that students understood the content completely.

Created a discord server that was welcoming and made it comfortable for anyone to talk

Discord, discussions, practice, literally everything.

Explained very clearly the problems.

He provides a lot of the useful suggestion and guidance on discord server.

Discord, discussions.

Encouraging during those times, I definitely needed that

Explained content that I asked for help with. Always was willing to break things down further.

Fast response times and encouragement

Gave many relevant practice problems

I felt that the Discord server was helpful because it gave students a convenient place to ask questions and access support outside of class from the Task.

I found the extra practice material he offered extremely helpful along with the study tips he'd give regarding the topics that students have struggled with in the past. He was very encouraging and always offered his help and availability.

amazing

Having Alisher create a Discord chat for the students where he replied to our questions quickly is very helpful to my success in the class. This shows how dedicated he is to his students, especially hours outside of his said availability.

host more zoom discussions

Maybe more clarity sometimes

more case scenario explanations, real world applications!

Nothing. Continue to do what you are doing.

10. Is there anything else you would like to share about your experience with this Instructional Assistant?

Alisher is the most dedicated TA I've interacted with at UCSD. This is evident not only in his clear communication of the Professors expectations, but also in the time and effort he put into answering questions on the class Discord. He consistently responded quickly, and it was clear that he genuinely cared about helping students succeed in the course.

amazing , seriously

amazing help!

Discord server is incredibly helpful! Pls keep this up! Thank you for everything this quarter ??

He was really helpful during this course, and very flexible and quick when it came to answering questions students had. He provided students with a discord in which many students participated and gave us an easy platform to ask for questions and provide notes.

he was very very helpful

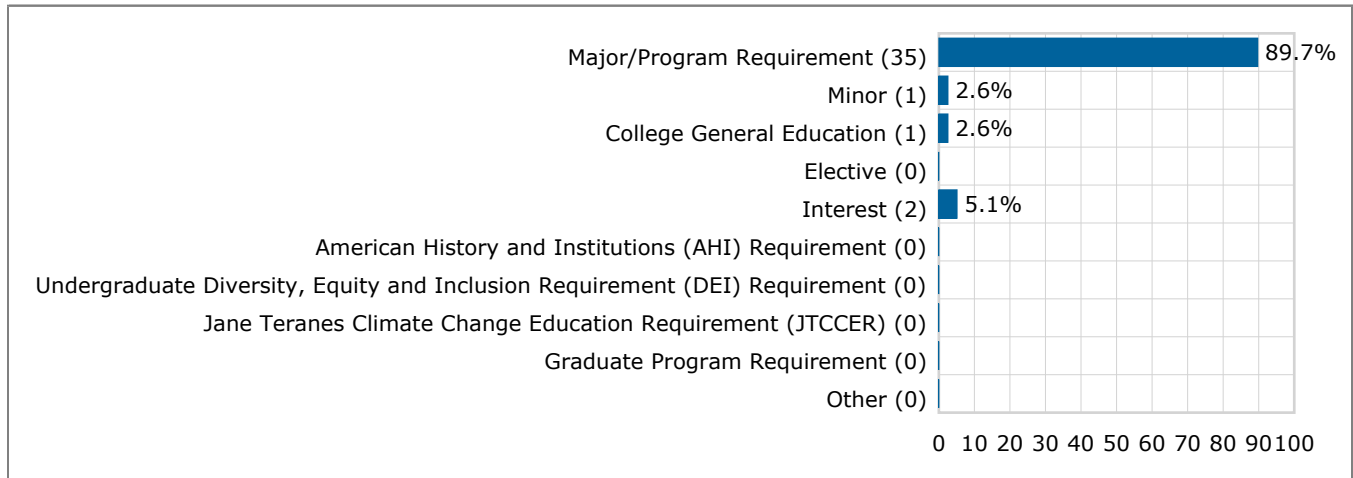

I also really appreciated the Discord. It was great for announcements/reminders you might miss from your email or canvas. He was also great at responding to messages/questions very quickly, especially around exams.

I respect him as an individual, especially as a person within economics.
