

**Student Evaluation of Teaching (SET) for Alisher Batmanov**

Summer Session II 2024 ECON 120B - Econometrics B (Batmanov, Alisher)
Section 494433 [A00]

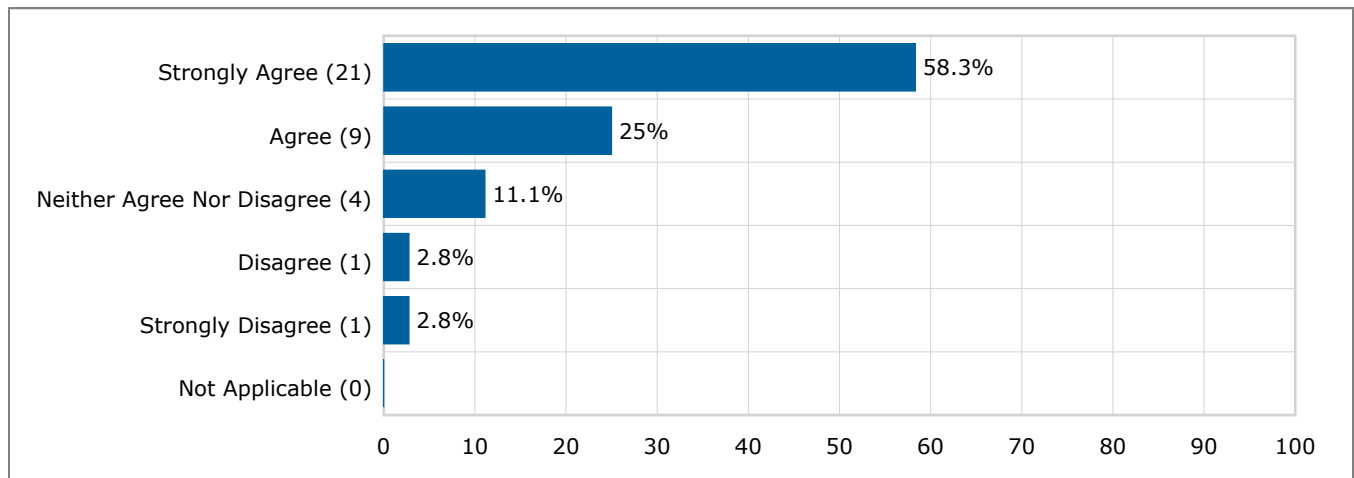

Enrollment: 50
Responses: 36 (72% response rate)

Scoring Methodology

A numerical value is assigned to each response in the standard Likert Scale used for evaluations: Strongly Agree (5), Agree (4), Neither Agree Nor Disagree (3), Disagree (2), Strongly Disagree (1). Responses marked "No Opinion/Not Applicable" are excluded from mean calculations.

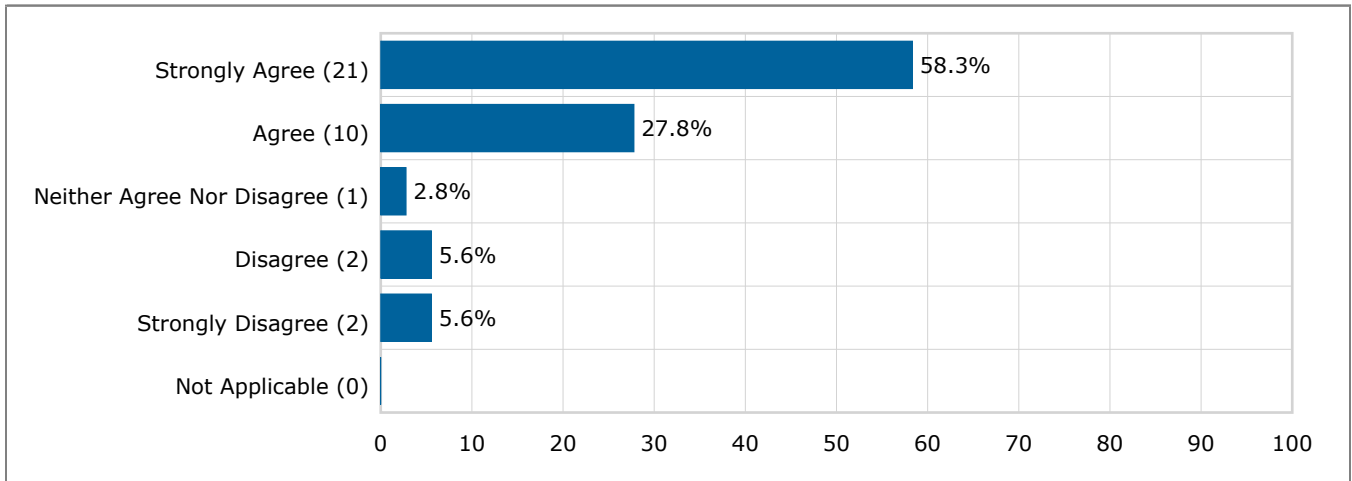

1. Class sessions helped me understand the course content.

% Positive/Negative	Mean (SD)	Median	Response Count
83.3% Positive 5.6% Negative	4.33 ± 0.97 (Agree)	5 (Strongly Agree)	36 (100.00%)

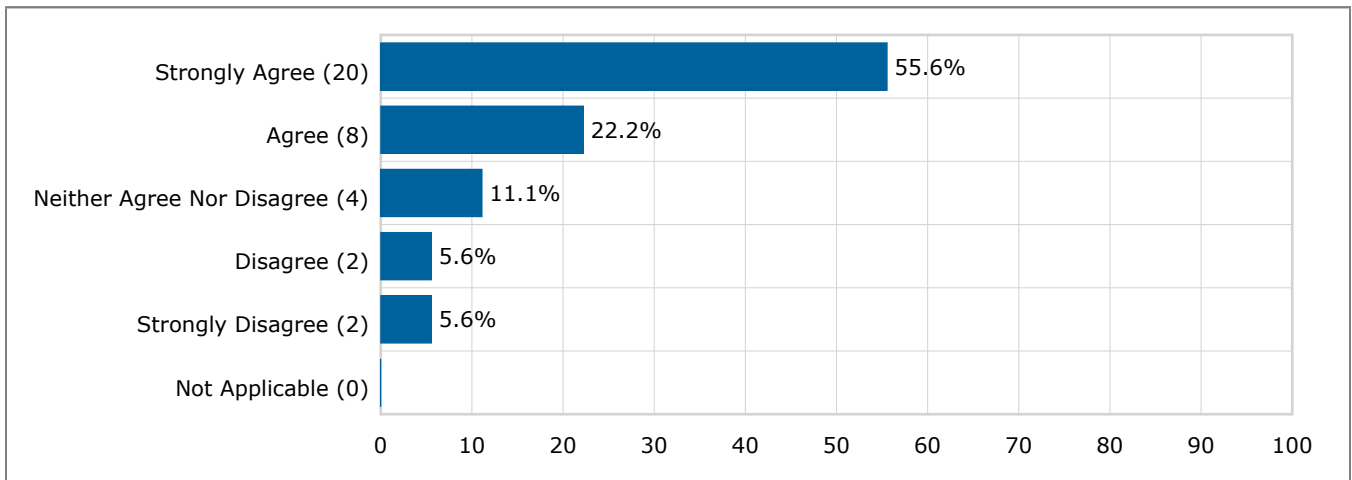

2. Assignments (reading, homework, projects, etc.) helped me understand the course content.

% Positive/Negative	Mean (SD)	Median	Response Count
86.1% Positive 11.1% Negative	4.28 ± 1.12 (Agree)	5 (Strongly Agree)	36 (100.00%)

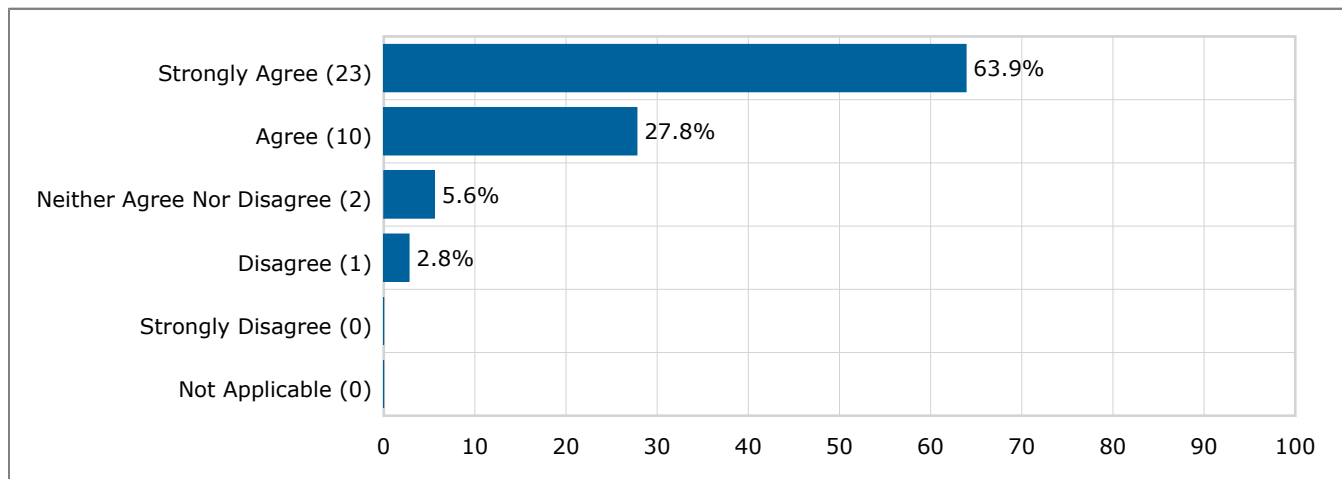

3. Exams and other assessments (essays, projects, etc.) were a fair measure of course learning outcomes.

% Positive/Negative	Mean (SD)	Median	Response Count
77.8% Positive 11.1% Negative	4.17 ± 1.17 (Agree)	5 (Strongly Agree)	36 (100.00%)

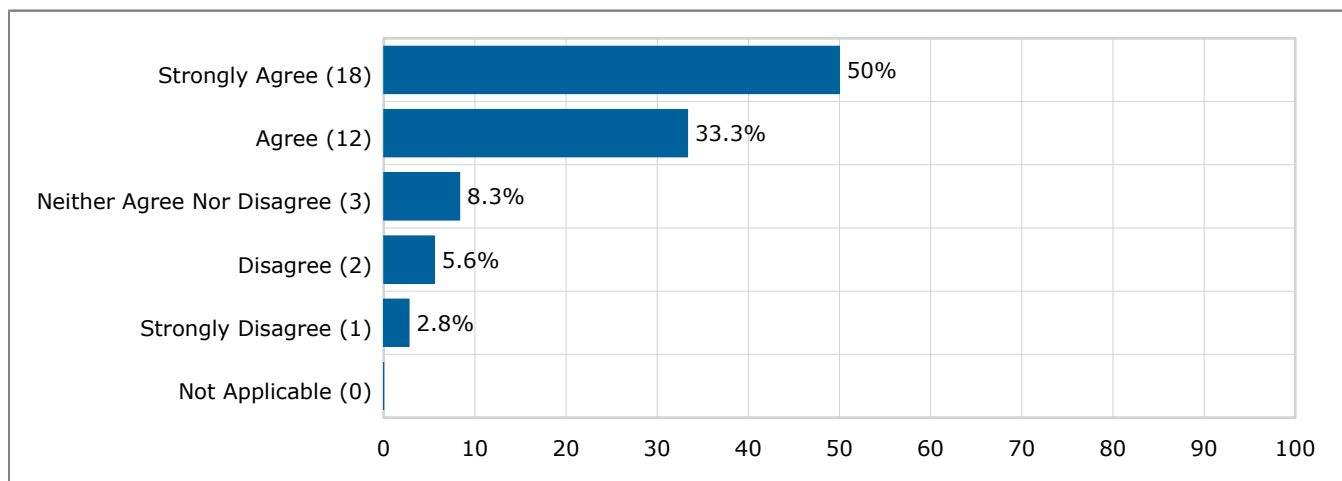

4. I received timely and helpful feedback in this course.

% Positive/Negative	Mean (SD)	Median	Response Count
91.7% Positive 2.8% Negative	4.53 ± 0.73 (Strongly Agree)	5 (Strongly Agree)	36 (100.00%)

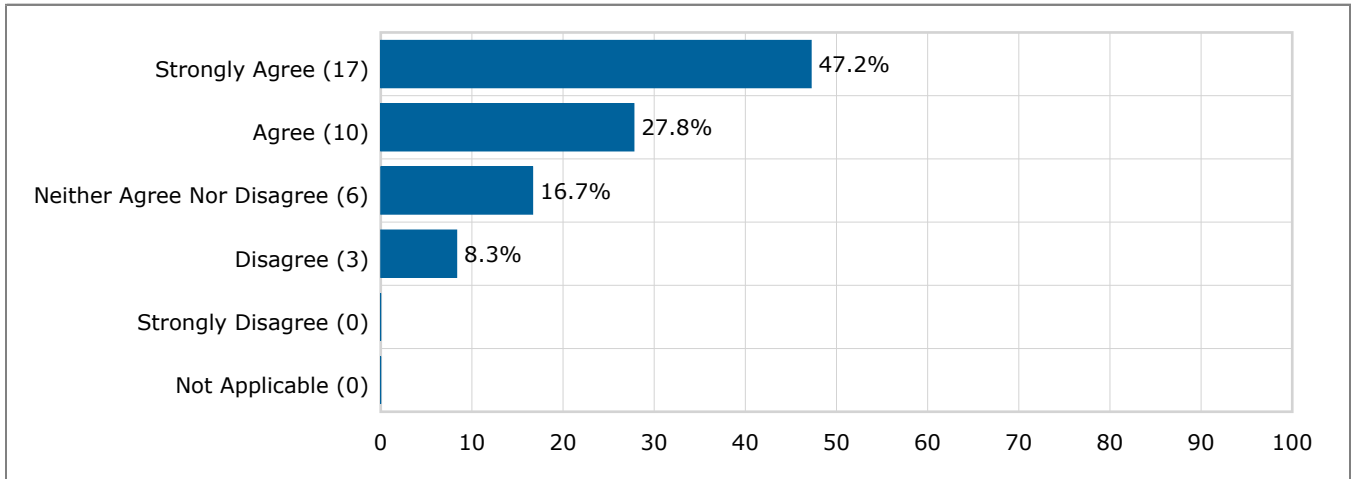

5. The course developed my understanding and skills for the subject.

% Positive/Negative	Mean (SD)	Median	Response Count
83.3% Positive 8.3% Negative	4.22 ± 1.00 (Agree)	5 (Strongly Agree)	36 (100.00%)

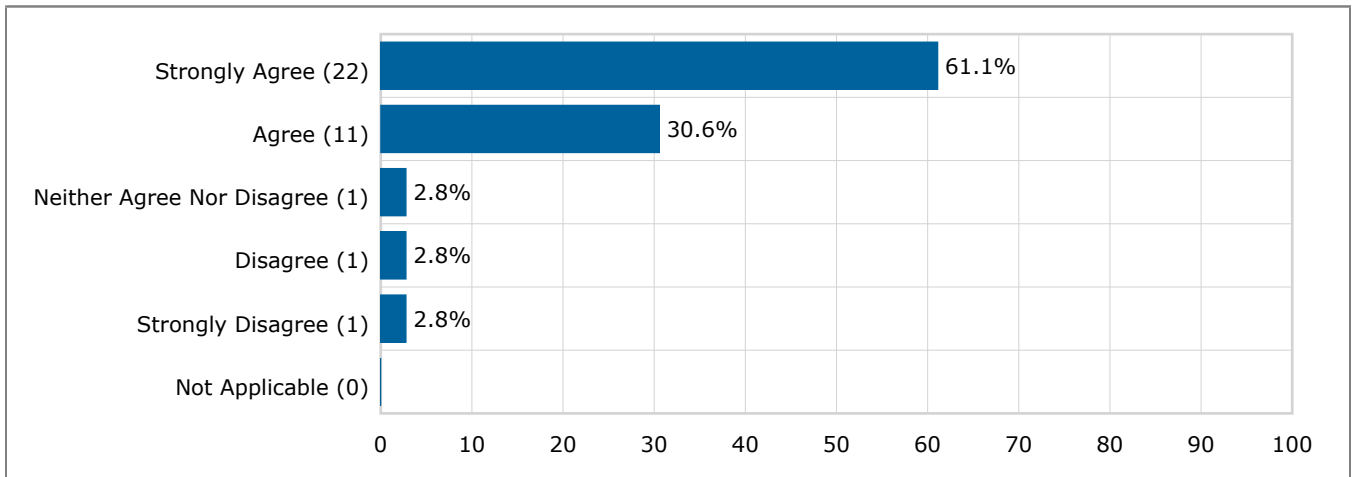

6. The course was intellectually stimulating and engaging.

% Positive/Negative	Mean (SD)	Median	Response Count
75% Positive 8.3% Negative	4.14 ± 0.98 (Agree)	4 (Agree)	36 (100.00%)

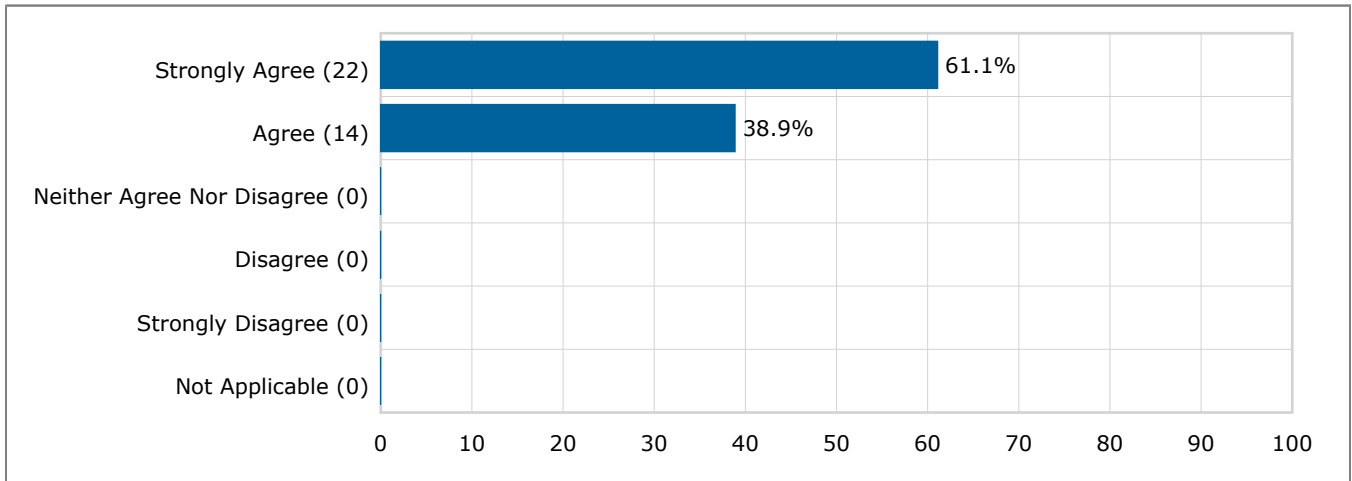

7. The instructor effectively communicated course goals, learning outcomes, and expectations.

% Positive/Negative	Mean (SD)	Median	Response Count
91.7% Positive 5.6% Negative	4.44 ± 0.90 (Agree)	5 (Strongly Agree)	36 (100.00%)

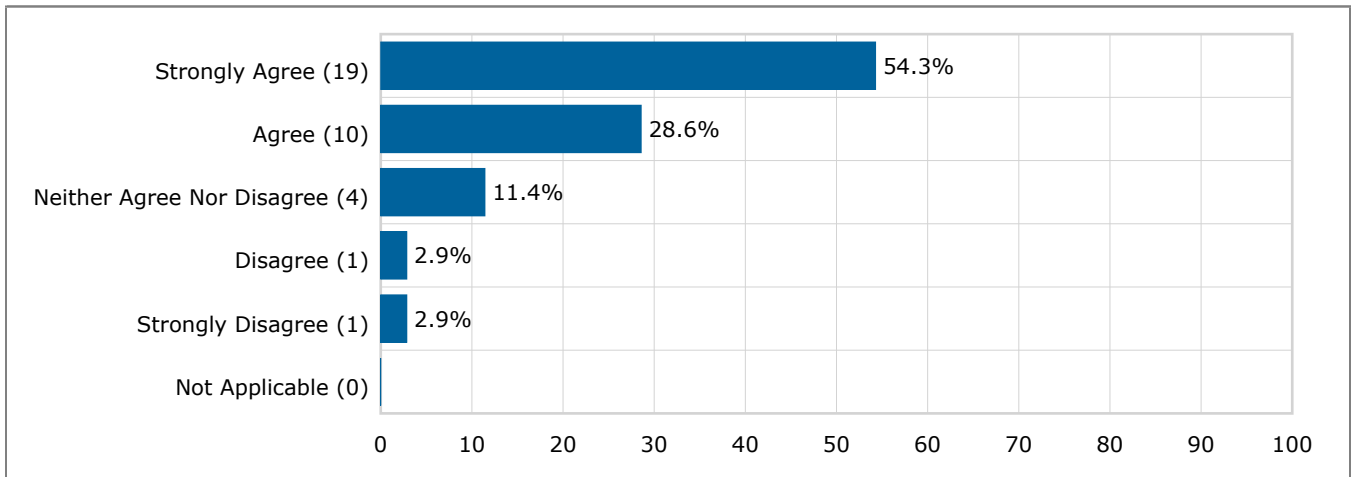

8. There were sufficient opportunities for me to get help when needed via offered opportunities (e.g. during established office hours, discussion, etc.).

% Positive/Negative	Mean (SD)	Median	Response Count
100% Positive	4.61 ± 0.49 (Strongly Agree)	5 (Strongly Agree)	36 (100.00%)

9. The instructor incorporated teaching methods that helped me learn.

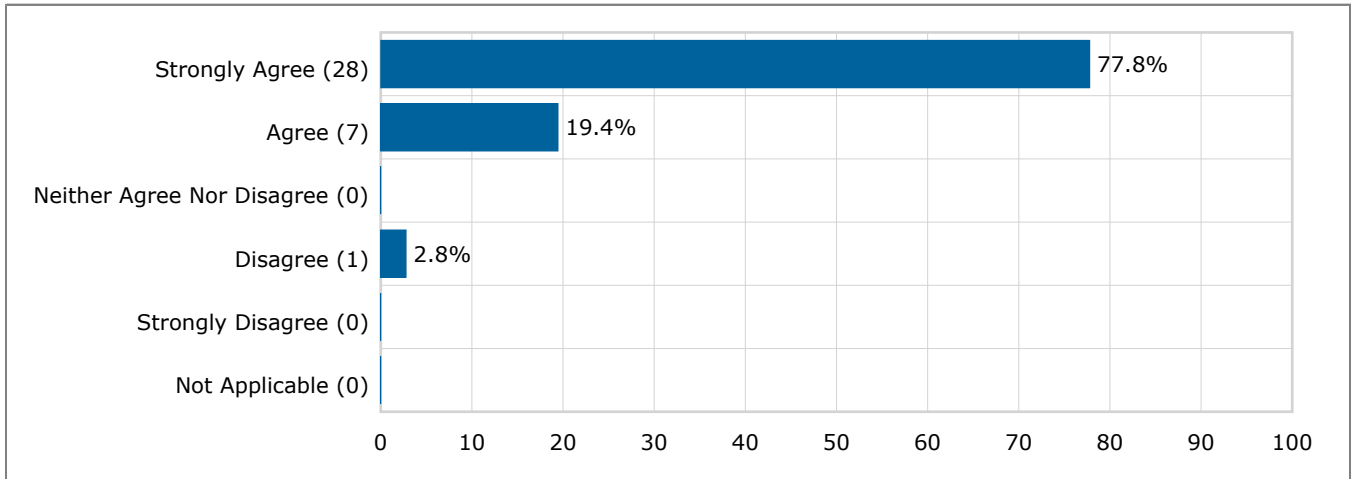

% Positive/Negative	Mean (SD)	Median	Response Count
82.9% Positive 5.7% Negative	4.29 ± 0.97 (Agree)	5 (Strongly Agree)	35 (97.22%)

No Response: 1

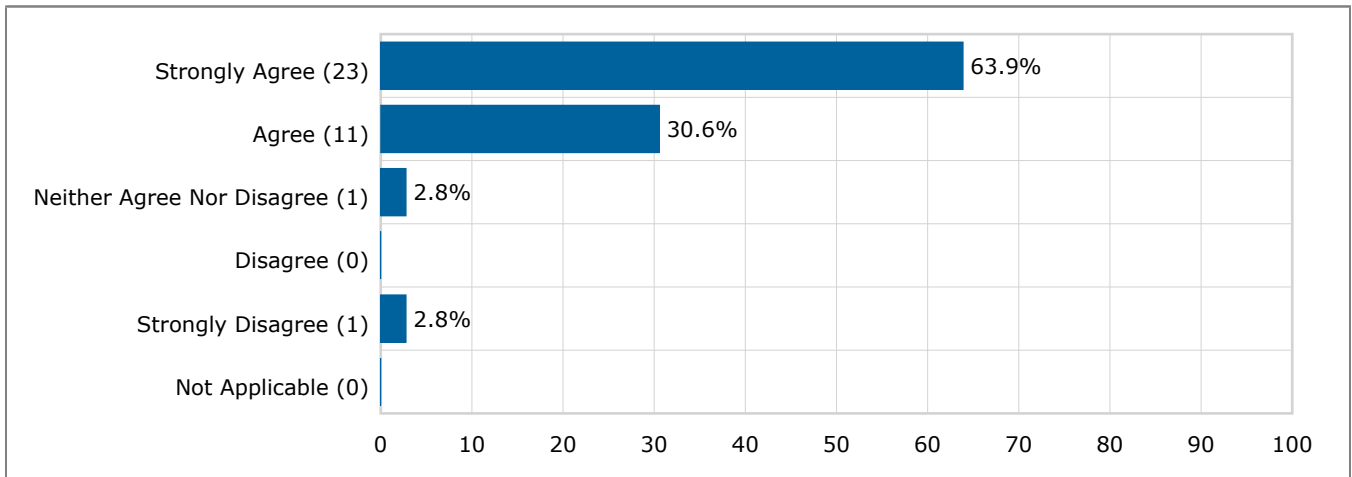

10. The instructor arrived on time to class sessions and office hours.

% Positive/Negative	Mean (SD)	Median	Response Count
97.2% Positive 2.8% Negative	4.72 ± 0.61 (Strongly Agree)	5 (Strongly Agree)	36 (100.00%)

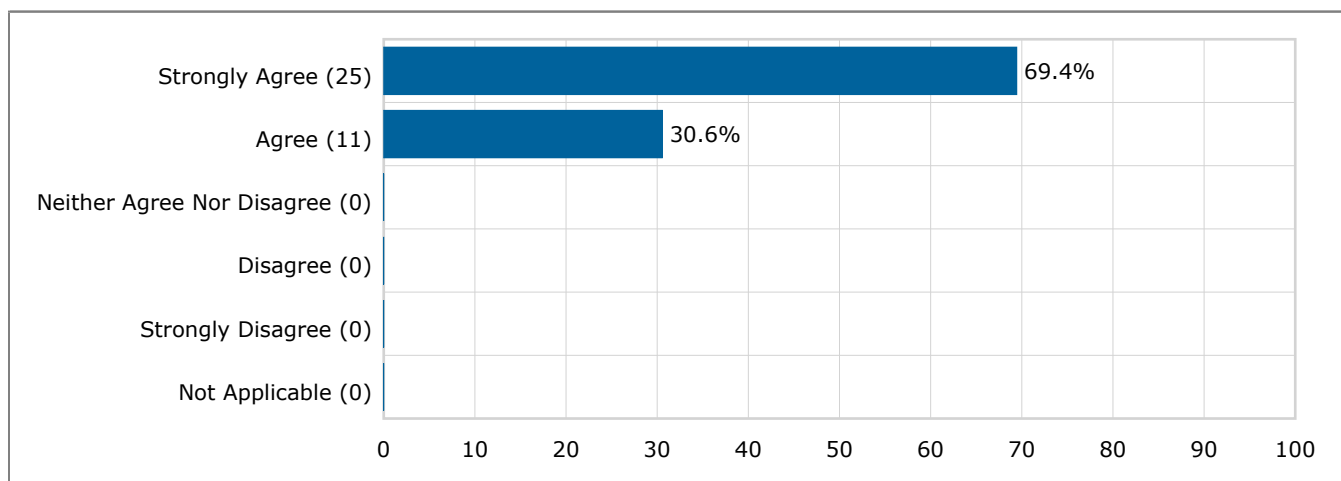

11. The instructor created a welcoming and supportive learning environment that valued and supported equity, diversity, and inclusion.

% Positive/Negative	Mean (SD)	Median	Response Count
94.4% Positive 2.8% Negative	4.53 ± 0.80 (Strongly Agree)	5 (Strongly Agree)	36 (100.00%)

12. The instructor explained what constituted cheating in this course and emphasized the importance of academic integrity.

% Positive/Negative	Mean (SD)	Median	Response Count
100% Positive	4.69 ± 0.46 (Strongly Agree)	5 (Strongly Agree)	36 (100.00%)

13. Please describe any specific aspects of the course and/or teaching practices that your instructor used that created or interfered with a welcoming and supportive learning environment that valued and supported equity, diversity and inclusion.

Always ask us to go to office hours if we needed help with anything.

Creating incentives for attending lectures

Encouraged questions and was very responsive on discord

He did

He made sure to ask the class questions while lecturing, and not just always the same person would be called.

He promoted asking questions to continue conversation.

He was really welcoming and interested in the lives of his students. He asked me about my work and why I was taking the class. He also went above and beyond by answering questions on discord that my team and I had. He was always prompt and informative.

He was very active on listening to his students.

The class discord server created a welcoming and supportive learning environment.

the consistency with office hours

The lectures and discord page created that environment.

Too much derivations and proofs for a lower level econ course. Many students hadn't worked hands on with many proofs before this course and this course was 90% proof/derivation.

14. Please describe any specific aspects of the course and/or teaching practices that your instructor used that particularly helped you to learn the material and/or develop your own critical perspectives on the material.

He did multiple examples with the things we learned each lecture.

His lecture notes were very well organized and easy to follow.

I didn't ask for any help outside of lectures

I felt the pop quizzes were a great way to make sure I was involved and focused during the class.

I really like that he posts lectures ahead of time so I can write on them. I also think the pop quizzes were pretty beneficial because it reinforced concepts I knew without too much fear or being penalized.

In class we think outside the box when doing lecture and answering questions.

Posting on discord.

Practice exams were nice. I was not a very big fan of homework in aiding my knowledge.

Problem sets

The discussion section.

The homework is usually difficult, but once you've done it carefully you'll be able to handle the test.

The problem sets helped me the material effectively.

the problem sets were incredibly useful

Very direct and explained the why whenever we used different methods

Yes he helped with this

15. Please describe any specific aspects of the course and/or teaching practices that your instructor used that helped you to feel engaged with the course material or that encouraged you to feel that you could succeed in the course.

always encouraged us to ask questions if we needed help or didn't understand anything.

Communicated well on discord and got back quickly.

Gave heads up about important material we should know for the tests.

He encouraged participation even when answers weren't quite correct

He explains concepts very well! He also cracks jokes which keeps me engaged

I especially liked how interactive lectures were

Lecture notes

Made sure he was readily available, especially in the discord channel that was made for the class.

The availability of the instructor through Discord.

The class discord server helped me do both of these things.

The structure of class and the PowerPoints were relatively easy to follow along, the instructor did a good job on teaching the material and following it up with practice problems. I also really loved and appreciated the bonus pop quizzes. I commuted from LA for class this summer so at times it was hard to get myself to go to class. However, the bonus quizzes encouraged me to go to class with a positive mindset because I knew I was only helping my grade. Getting to do a bonus quiz helped me get to class and learn in person!

Too many proofs for almost all lecture. This broke my engagement because after 1 and half hours of proofs I don't understand. I would've much rather seen problems worked.

yes

Yes he did help

16. Please describe any specific aspects of the course and/or teaching practices that your instructor used that were less helpful for your learning. Optionally you may offer constructive suggestions that might improve their effectiveness.

Everything was great

I felt the lack of a textbook or reference made the class much more difficult. It made me the student much more reliant on practice tests and class time. I felt the lack of examples and problem references made it more difficult to get more comfortable with the subject to the course.

Maybe talking a little too fast in lecture. Sometimes I find myself catching up to his words.

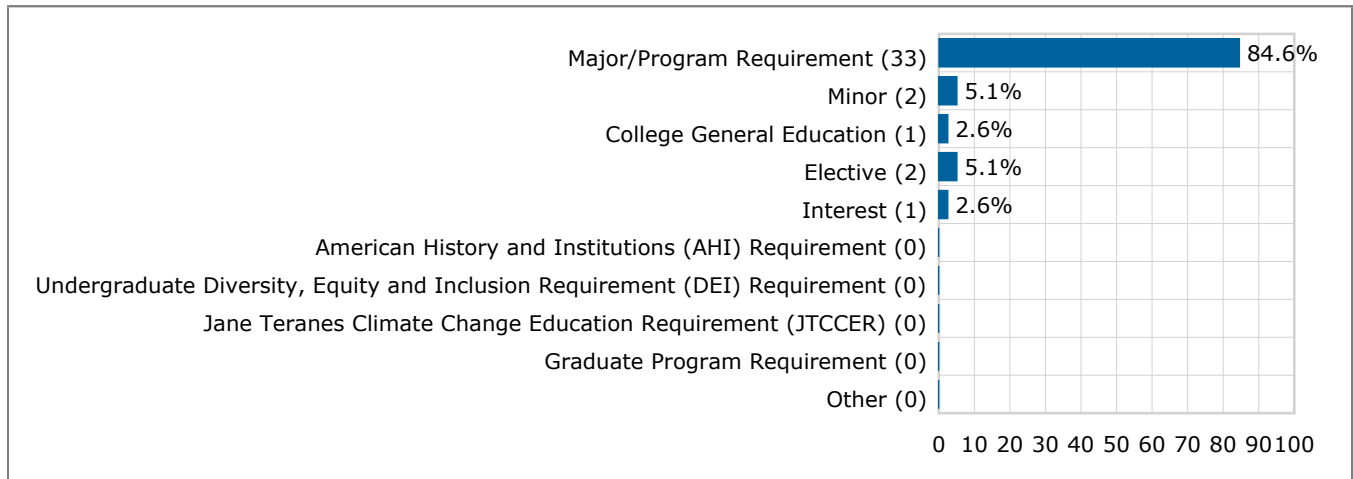

Not sure

The course would have been easier if group work was assigned!

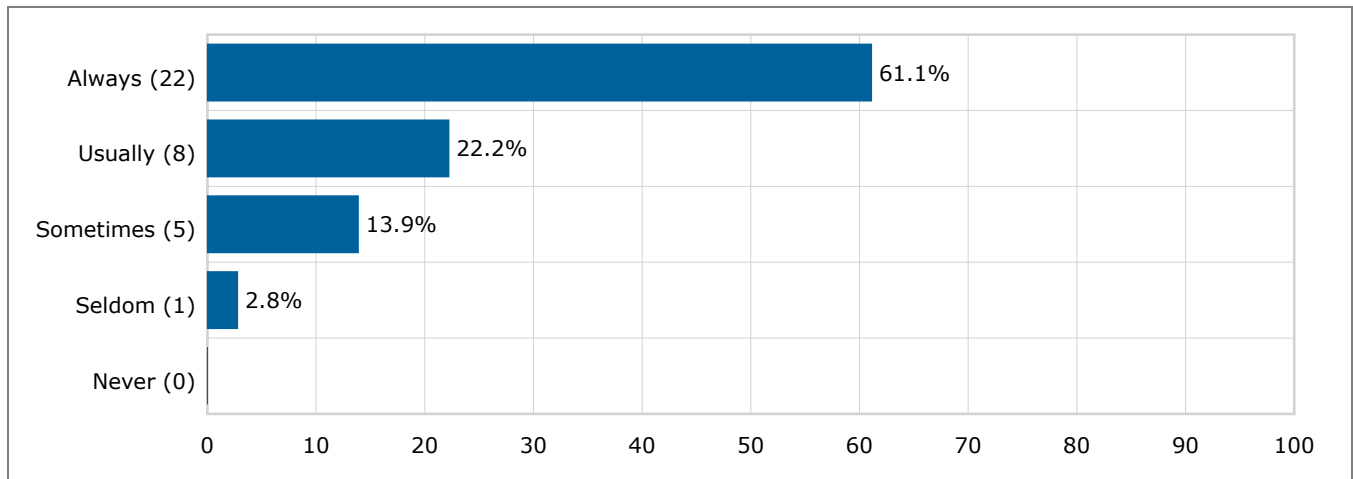

There isn't anything that comes to mind.

Too many proofs and derivations

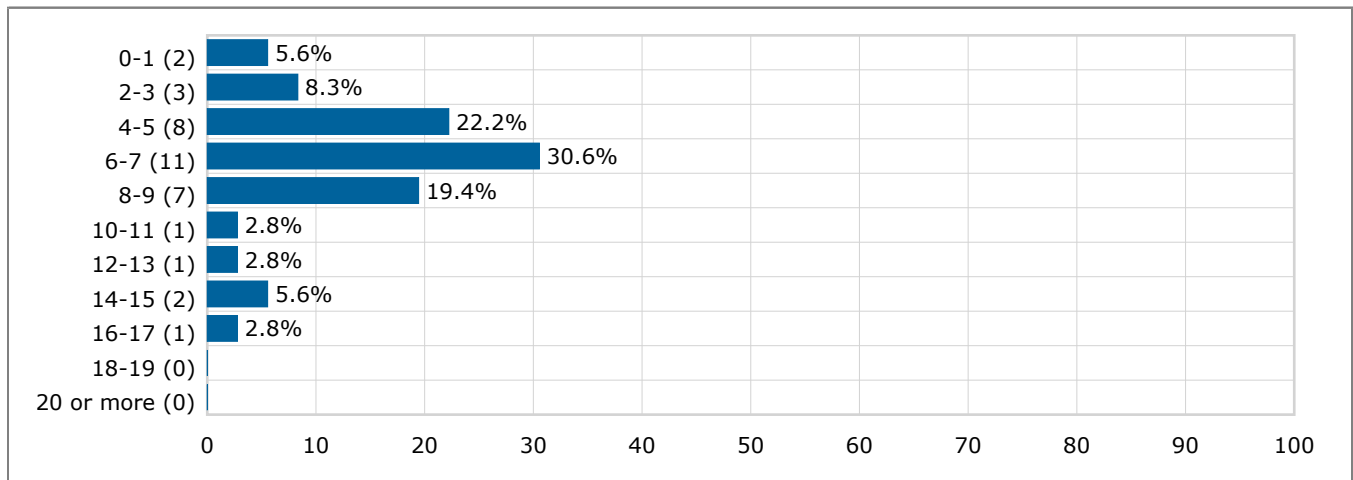

17. What was/were your reason(s) for taking this course?

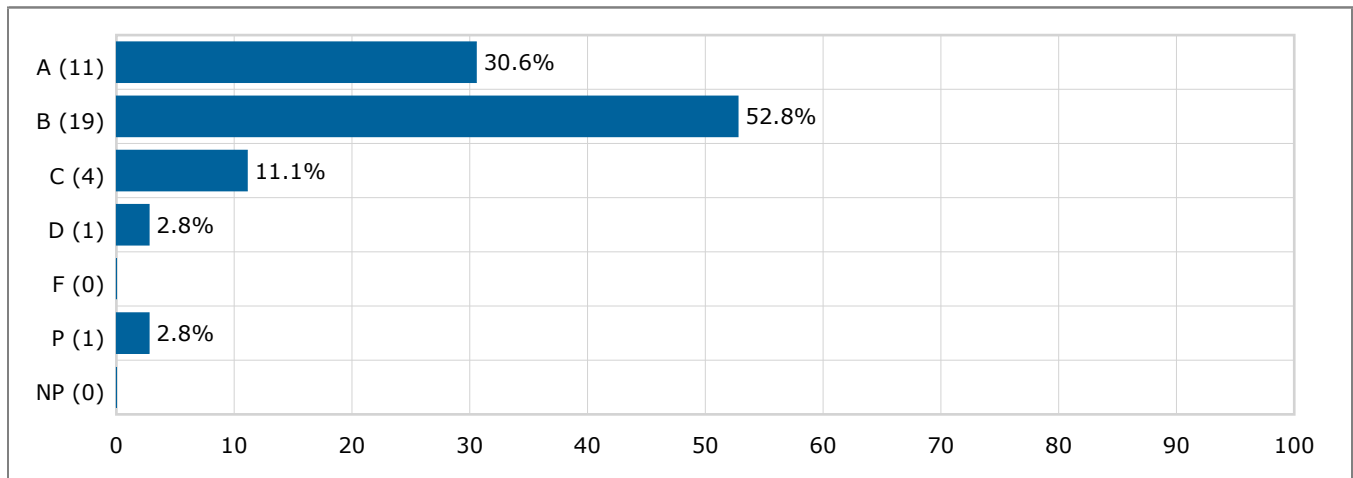

18. How often did you attend class and/or engage with course materials?

19. Hours per week of work outside of class

20. Expected grade in the course

21. Is there anything else you would like to share about your experience in the course?

Amazing teacher

He's an awesome professor and really nice!

his teaching methods are not related to econometrics, they were purely math, did not match the average standards of other instructors in the department.

Loved taking this class! The professor is wonderful!

No. It was great

pop quiz is really a good way to check my understanding of the lectures.

Professor did a good job

The professor did a great job and we could easily have a conversation on top of discord just like face to face. I like him a lot. Alisher Batmanov always posts grades at late night, which means he always works late into the night for us. I appreciate that, in other words you're the best professor I've ever had.

The professor did a wonderful job engaging the students in a way that made the information stick. I appreciate his teaching style and the things I learned.

The rate the material was taught at was easy to follow in context of the quick pace for summer session.

There isn't anything else I would like to share.

The data and comments provided in this report are unfiltered and unedited, and do not necessarily reflect the opinions of instructors, the teaching department, Academic Affairs, or UC San Diego. Responses and comments are made available without auditing or editing, and they may not be modified or deleted, to ensure that each evaluator has an opportunity to express their opinion.
